Context

Content and Language Integrated Learning (CLIL) plays an increasingly important role in language education. At the same time, STEAM (Science, Technology, Engineering, Arts and Mathematics) is important because it pervades every part of our lives.

Objectives

1. Provide teachers using CLIL, worked with a necessary knowledge and skills to create their own materials

2. Provide teachers and students with high quality and highly transferable CLIL based teaching materials, focusing on STEAM curricula

3. Creating a community of practice through which teachers and educators could share their CLIL materials and tips for teaching STEAM in a foreign language

The C4S project aims at combining the study of CLIL and STEAM. Specific objectives of the project are:
